# Recommendations

In addition, students in 2024 will require:

- **Bluetooth Keyboard** (Keyboards are only required for Year 2 to 6 students only)
- **All Apps as per Year Level list** Apps must be paid for and installed by the parent ready for the first day of school 2024.
- An **iPad cover** that will provide robust protection.
- **Headphones** (over the head style).
- **Carry case or laptop bag.**
- **Tempered glass screen protector** for the iPad (**Optional but highly recommended**).
- **Microfiber cloth** for cleaning iPad.

## **Year 2 – 6 The benefits of a physical keyboard over the onscreen one.**

While the on-screen keyboard is a good option for shorter sessions, a physical keyboard offers a level of speed, accuracy, and tactile feedback that an onscreen keyboard lacks. It also helps prepare students for high school and is a required item for students sitting NAPLAN.

When purchasing an iPad cover with an attached keyboard or a Bluetooth keyboard we highly recommend keyboards where the keys are not easily removed. As per examples below
