Selling Locally

Love of Learning is a passionate pursuit of knowledge of its own sake, closely linked to curiosity. It's not the quick acquisition of facts, but rather looking to deeply understand something and retain that knowledge. This is the kind of knowledge that builds experts, with specific words and comprehensive understanding they can share with others. School is a wonderful opportunity to explore a range of topics and ideas, but to be a true lifelong learner, you need to investigate in your own time too. Try to offer, encourage and participate in opportunities for further learning, some suggestions are below!

- Some ways to keep learning
- Visit the library to find books on a favourite topic.
  - Deep dive into a topic of interest with books, videos and research.
  - Model learning as an adult and engage in discussions.
  - Explore museums, art exhibits, local parks or virtual tours to explore art, sport, science, wildlife and so much more!

**Love of Learning**

*I am motivated to acquire new levels of knowledge, or deepen my existing knowledge of skills in a significant way.*

## HOW TO HELP YOUR KID DEVELOP A LOVE FOR LEARNING

Help your child develop a love for learning with these tips!

- Let them **explore** their interests and passions.
- Give them **hands-on experience** and plan activities.
- Ask them questions and **discuss topics together.**
- Learn together and show your own **love for learning.**
- Figure out how they **learn best.**
- Make **books** accessible.
